Grievance Description : Respected Sir, firstly i would like to congratulate you and your government for various development initiatives... Swatch Bharat..Make in India...Mudra...Skill Development Initiative..and Now Startup India ...I'm confident that soon India will become a super power and we will transform from a developing to developed nation.. To support your initiatives of Skill Development and Stat-ups i request some autonomy and recognition to Independent Accountants and Tax Practitioners... also there is huge discrimination and humiliation we face ...we are unorganized and unrecognized..often we are regarded as uneducated... Attaching here with a detail Skill Development plan for Tax Practitioners who work exclusively for MSME's ... No sector specific Skill development council exists for these SME's specific support professionals.. and there exists a huge demand for creation of the same...please help tax practitioners get some recognition for their profession.. Please help in formation of Institute of Certified Public Accountants ... Awaiting your reply sir....
